

2019 Innovation Awards Q&A

1. What falls under the category of “project” for these submissions?

Project in this case is an all-encompassing term. Your submission can be a procurement/sourcing event, process improvement project (e.g. Lean), new resources or other tools produced.

2. Can we nominate other agencies/campuses?

Yes. We recommend notifying them if you plan to do this, as the form does request the acknowledgement of that agency’s leadership and approval of that agency’s special designated agent.

3. Is this modeled after the Cronin Awards?

Yes.

4. Is it possible to get more time to work on these?

Yes, if agencies notify the Bureau that the current deadline of August 8 is not feasible, we can consider an extension.

5. How does the award system work?

We intend to award 1st, 2nd and 3rd places with the other nominations identified as honorable mentions.
